

## **Painted Skies Dental Center – Las Cruces, NM**

We are delighted that you chose our dental practice and look forward to meeting you. We would like to take this opportunity to share some information regarding our practice and policies with you.

### **About Us**

We're a family-oriented dental practice, offering gentle comprehensive and multidisciplinary treatment to our patients. What's unique about us is our very personal quality care. Our first priority is your comfort. Your individual needs are always considered.

Dentistry has seen dramatic changes over the years. New materials and techniques have given us the means to perform some pretty wonderful transformations while minimizing discomfort. Painted Skies Dental Center utilizes the latest technology and strives to stay educated on the latest materials and procedures. We place crowns, partials, dentures and implants to restore function where some teeth are missing, or there are no teeth at all. Cosmetically, we can achieve amazing results with bonding, veneers, whitening and an array of procedures to repair teeth and, not incidentally, self-esteem. We also perform endodontic, pediatric and oral surgery services.

### **Location**

We are located at 2141 Hammerand Ct at the intersection of Telshor and Hammerand, across from the Spruce underpass.

### **Radiographs**

Our facility is entirely digital and computer based. This means that we also utilize digital radiography. Using the latest in X-Ray technology, we are able to obtain radiographs that are displayed instantly on a computer monitor for analysis. Most importantly, these radiographs expose the patient to ten times less radiation than conventional x-rays.

### **Insurance**

We accept a variety of insurances at our practice. If you have insurance, please bring a copy of your claim form and I.D. card or insurance booklet to your initial visit and please keep us updated to any changes in your coverage. We will gladly assist you in determining your coverage and filing claims. Depending on your coverage you may be required to pay a deductible or a co-pay following treatment. Ultimately, it is your responsibility to understand your dental coverage.
